GOLF AND TENNIS NOTES

By F. H. YOUNG.

Applying the custom followed in football, basketball and other sports of selecting all-star and sectional teams, the following ten players are submitted as an "All-Washington" tennis team for 1916. In picking a team of this kind it is impossible to please everyone, and there will no doubt be any number who do not agree with the writer. The more one looks into the "dope," the deeper he gets in the mire. For instance, Gore has been beaten by both Morgan and Lewis, but has a victory over Breck, who has beaten both of the other two. Graves was runner-up in the District tourney, in which all of those named above were entered but Breck, and yet he has been beaten by practically all of them since. In picking this team, tournament play was given more weight than was counted in team matches. "Connie" Doyle, of Columbia, is of course rated as No. 1, with Henry C. Breck, also of Columbia, as No. 2. Dudley Morgan, of Chevy Chase, appears to be the logical choice for third, with "Al" Gray, of Dumbarton, fourth. John T. Graves, Jr., and George L. Lewis, both of Dumbarton, figure fifth and sixth, with J. Uphur Moorhead and Arthur Hellen, both of Chevy Chase, in seventh and eighth. Douglas Hillyer, of Dumbarton, has shown enough to be ranked as No. 9, with Edward O. Leech, of Columbia, as the last man on the team. "Rol" Doyle, who ordinarily could not be kept off a team of this kind, has been playing golf practically all the season and has not shown up well on the courts. R. C. VanVliet only took part in one tournament and although he won this he is not named because he was only here temporarily. Ballard Moore, Charles T. Chapman, Gould Lincoln, "Lou" Doyle, J. M. Hancock, and one or two others are all good men but it is not believed that they figure ahead of those named. Ballard Moore started off the season well but has attempted several new strokes with the result that his showing during the last part of the season has been rather mediocre. All things being considered, it is believed that the ten named above would form the strongest local combination that could be gotten together.

Edward B. Synon, Jr., of Columbia, will

be the next golfer to have his name on the plaque kept by his home club on which is recorded the name, club and score of the player making the best round over the course each year in a regularly authorized event. 1916 is the fifth year the plaque has been in existence. John C. Davidson's 71 was best in 1912. Incidentally, this has never been equaled by an amateur and is the recognized record. Jerome Travers, with a 74, took honors in 1912, while in 1914 Walter R. Tuckerman, Walter J. Travis and Daniel N. Jackson tied with 73. Sam Dazell counted another 73 last year, and it was easily best, while Eynon registered the same figure this year in the qualifying round of the June monthly tournament of the club.

The Kirkside Golf Club is hard at work on the handicaps of its various members. It expects to have a number of closed events in the near future and to penalize members who enter events but fail to turn in their cards. In this way it hopes to get a good line of its players so that when the season opens in the spring it will not have to do any experimenting but can start its players off with fair handicaps. This handicap question is one of the hardest propositions a club is up against, and it is not a power as "the job" all the time a player with a big handicap may win a number of events before his rating is cut down to what it should have been in the first place. This is due largely to the fact that he hasn't turned in any cards and the Handicap Committee has not been able to get a true line on his game. The Kirkside officials believe that if a player not turning in his card is penalized, he will not "forget" a second year, and their experiment will no doubt be watched with interest by the other clubs.

There will not be any "Departmental Tennis League" dinner this year, as last night's affair at the New Ebbitt took the place of the one generally held by the clerks. The Departmental League is a member of the Washington Tennis Association, so that last night's affair was in reality a joint one between the Departmental League and the Dumbarton, Chevy Chase and Columbia clubs.

It is to be hoped that the officers of the Washington Duckpin Association will not defer calling a meeting of the association until such a time as to then require undue haste in arranging the many intricate details attached to an event of this kind.

They should bear in mind that the coming tournament gives every indication of being the largest ever held in the National Capital, and to insure its complete success the minutest attention should be given every particular.

Right now there has been considerable

agitation turned loose over the proposal of the Navy's Vaeth, manager of the Grand Central alley, that the entry list should not be restricted to teams of the District only, but should be made an open affair. Vaeth contends, and his argument is good, that if the bars were let down and teams from nearby cities were permitted to shoot in the different events, it not only would swell the entry list, but would also serve as an enthusiastic incentive for local players to pit their skill against the outside teams.

It seems that in some quarters opposition can be expected when Vaeth's proposition is broached at the first meeting, as it is all probability will, if the reports which are being circulated, are to be given any credence. The National Capital's duckpinners have in all matches of an intercity nature during the past decade, more than held their own, and just why there should be any objection raised to allowing those rollers from nearby cities compete is hard to see.

This query was slung to us through Uncle Sam's mail. In it you may find the answer: "I've ordered the dope sheet aside, and I've lamped the dope sheet aside. I've seen eight men made cross-wise. And a hit that left one standing, cured. But show me the guy with the deadly peg who finishes with a graceful slide. That can't roll 130 next to a 'keg.' When throwing the ball by the old fire-side."

Next Saturday night, Charles Bartles, acknowledged premier pocket-billiardist of the District, is booked to meet Ed Conklin, of Baltimore, in the first block of 125 points, of their 1,000 point match for the inter-city championship. Bartles, in the past, has always carried the edge in his matches with the Oriole cuedist, and the chances are that he will experience little, if any, difficulty in disposing of Conklin.

There may be such a thing that Conklin may show more than those who have preceded him as Baltimore's representative against the Capital team, but when it is made known that in the Monumental City he is not rated above some of those who have fallen before Bartles, the dope points to a victory for the local man. Regardless of this, the match should prove to be of more than usual interest, inasmuch as the Maryland man must surely possess a little class to defeat all comers in the tournament held to pick the man to meet Bartles.
